

SPHERE OF INFLUENCE

PURPOSE

(Adopted January 18, 1995, by LAFCO Resolution #2499)

Government Code Section 56076 defines a sphere of influence as “a plan for the probable physical boundaries and service area of a local agency, as determined by the commission.” It is an area within which a city or district may expand, over an undefined period of time, through the annexation process. In simple terms, a sphere of influence is a planning boundary within which a city or district is expected to grow into over time.

The purpose of a sphere of influence is to encourage the “logical and orderly development and coordination of local government agencies so as to advantageously provide for the present and future needs of the county and its communities.” The following enumerated items comprise the statement of purpose adopted by San Bernardino LAFCO for spheres of influence:

1. To promote orderly growth of communities, whether or not services are provided by a city or district (board governed or independently governed);
2. To promote coordination of cooperative planning efforts among the county, cities, special districts, and identifiable communities by encouraging compatibility in their respective general plans;
3. To guide timely changes in jurisdiction by approving annexations, reorganizations, etc., within a sphere of influence only when reasonable and feasible provision of adequate services is assured;
4. To encourage economical use and extension of facilities by assisting governmental agencies in planning the logical and economical extension of governmental facilities and services, thereby avoiding duplication of services;
5. To provide assistance to property owners in relating to the proper agency to comprehensively plan for the use of their property;
6. To review, update, and/or change existing spheres of influence periodically to reflect planned, coordinated changes in factors which impact on spheres of influence; and
7. To encourage the establishment of urban-type services only within an adopted sphere of influence.

The Commission emphasizes that a sphere of influence is a planning tool and the establishment of a sphere of influence, or the inclusion of territory within a sphere of influence of an existing governmental entity, does not automatically mean that the area is being proposed for annexation or development.

Establishment of a Sphere:

As outlined under state law, the Commission is designated as the public body responsible for determining spheres of influence for each city and district within its jurisdiction.

As a function of incorporation and as outlined in Government Code Section 56426.5, the Commission must establish a sphere of influence for a newly-incorporated city within one year of its incorporation effective date. Usually within six months of a city's effective date, the LAFCO staff notifies the city of the requirement pursuant to state law. The sphere proposal may be initiated by the Commission, the city council, or the County Board of Supervisors, through adoption of a resolution of the governing body.

State law also stipulates that a sphere of influence will not be established or changed without specific review and study independent of any action before the Commission at the time. Public hearings are held to review sphere of influence proposals such as establishment, amendment, or in connection with any proposed annexation, which may or may not involve another agency's sphere of influence.

Factors of Consideration:

As part of a sphere of influence review and as outlined in Government Code Section 56425, LAFCO is required to review four "factors of consideration" in connection with any sphere of influence proposal. The factors of consideration are as follows:

1. The present and probable land uses within the area, including agricultural and open space lands;
2. The present and probable need for public facilities and services in the study area;
3. The present capacity of public facilities and the adequacy of public services that the agency provides or is authorized to provide; and
4. The existence of any social or economic communities of interest in the study area.

In these categories of review, a city or district must show that its planning activities can be beneficial to the area, and that the initiation of those activities is appropriate. None of the above factors by themselves shall be deemed to be a determining factor in the establishment or revision of a sphere of influence for a city, district, or community area, but shall be reviewed as part of the total project.

The factors of consideration noted above are addressed individually within the staff's report for each sphere of influence proposal.
